

To whom it may concern,

On behalf of Cummings Brothers Truck Repair, I would like to say how very pleased we are with the profit share program that we are partnered with Carbon Tek USA. We have been using the Carbon Tek hydrogen carbon cleaning machine at our service center in Pompano Beach for the past 8 months. We have found the Hydrogen cleaning service to be an effective method of reducing carbon build-up inside engines, as part of a preventative maintenance program. We have found the Carbon Tek hydrogen service compliments the other services we offer, as the process is simple, very effective and priced correctly. It enables us to add a money saving service for customers as well as a new revenue stream for the shop. Our customers have given us good feedback and have mentioned that their trucks run much better and that "regen issues" are greatly reduced following the service.

Cummins Brothers Truck Repair is looking forward to a continued profitable partnership with Carbon Tek USA.

Sincerely,

A handwritten signature in black ink that reads "Shane Seamans". The signature is fluid and cursive, with a long, sweeping underline that extends to the right.
