Testimonial Letter

Dear Richard.

It is my great pleasure to write this short testimonial letter regarding our experience using your Engine Carbon Clean USA services at Southern Waste Systems.

During the period from October 2015 to February 2016 Engine Carbon Clean USA cleaned approximately 60 of our MACK and Peterbilt refuse trucks. During this time our technical staff closely monitored the effects and results to our trucks. The feedback from our supervisors, mechanic's, and drivers was 100% positive. We experienced a huge reduction in REGEN problems, and down time relating to DPF's. We saw a marked reduction in emissions which led to a cleaner looking fleet, and drivers reported the trucks have much more power. All this related to substantial saving to our company bottom line.

I am convinced that your service made a big difference to our fleet, and we would be still using your services had SWS not been sold to Waste Management.

Thank you again for introducing Engine Carbon Clean USA to my company, and we look forward to working with you again in the future.

Yours Sincerely,

A handwritten signature in blue ink that reads 'Charles Lomangino'.
